"Full-stack and AI developer passionate about automation and open-source technologies"

[AtCoder](#) | [Github](#) | [LinkedIn](#) | [Codechef](#) | [Google Cloud Profile](#) | [Codolio](#) | [Salesforce Trailhead](#) | [Kaggle](#)

EDUCATION

B. Tech in Computer Science and Engineering:

11/2022 to 06/2026 (Expected)

Jaipur Engineering College and Research Centre College, Jaipur (RTU, Kota)

Grade: 86.4

PROJECTS

Campaign Recommendation System:

[Project Link](#)

- FastAPI service with OpenAI LLM integration for keyword performance analysis and automated replacement suggestions
- Configurable scoring algorithm with Azure SQL backend for campaign data processing and metric normalization

JECRC Chatbot:

[Project Link](#)

- FAISS vector search with Sentence Transformer embeddings for FAQ retrieval, fallback to Ollama's Mistral:7b-instruct LLM
- Streamlit web app with real-time chat, cached model loading, and dual CLI/web deployment

WebTask (MERN note-taking app) :

[Project Link](#)

- MongoDB, Express.js, React.js, and Node.js (MERN) note-taking app with JWT auth and Redis rate limiting for secure operations
- React and Vite frontend + Express.js API using Tailwind CSS, bcrypt hashing, and production deployment setup

EXPERIENCE & INTERNSHIPS

AI Software Developer Intern, NYX (07/2025 to 08/2025):

- Built and deployed containerized AI microservices and MLOps with FastAPI, Celery, and LLM APIs (OpenAI, Eleven Labs)
- Automated media pipelines (cutting manual effort by 30%) in Azure storage and CI/CD with Docker and GitHub Actions

Data Scientist Intern, Celebal Technologies (06/2025 to 07/2025):

- Completed an 8-week hands-on training in Python, OOP, SQL, ML, and Generative AI with project-based learning
- Engineered end-to-end machine learning solutions using data preprocessing, feature engineering, and regression techniques

Cybersecurity Trainee, PwC (02/2025 to 06/2025):

- Concluded PwC Launchpad Path with hands-on training in Python, cybersecurity, and prompt engineering
- Gained practical skills in scripting, security fundamentals, and Generative AI concepts through micro-certifications

AI/ML Instructor, JECRC (02/2025 to 05/2025):

- Taught 100+ first-year students AI/ML on-site using a self-designed 10-module curriculum, culminating in an end-to-end project
- Developed an admission chatbot by training the Mistral 7B Instruct LLM using Retrieval-Augmented Generation (RAG)

Research Consultant, WorldQuant (06/2024 to 02/2025):

- Developed 15+ 'Alphas' which are mathematical models used to provide weights to a financial portfolio
- These alphas are then used to generate trading signals and are rewarded accordingly as per their efficiency

CERTIFICATIONS & TRAINING

Certified System Administrator, ServiceNow (Certification Number: 27169168):

- Managed and configured core ServiceNow modules to support enterprise IT operations
- Defined roles, access controls, and security policies to ensure compliance and system stability

Certified Application Developer, ServiceNow (Certification Number: 27187383):

- Built and deployed custom applications using ServiceNow App Engine Studio to meet business needs
- Automated workflows and processes through advanced scripting, improving efficiency and reducing manual effort

Cloud, DevOps and SRE, UpFlairs:

- Built and deployed scalable AWS architectures (EC2, IAM, Auto-Scaling, ELB), boosting performance by 30%
- Containerized microservices with Docker and Kubernetes, cutting deployment time by 40%

Frontend Web Development, UpFlairs:

- Acquired foundational web development knowledge using HTML, CSS and Bootstrap
- Developed a strong foundation in modern web development practices and debugging skills

SKILLS

Languages: C, C++, Python, Golang, Bash, Java, SQL, HTML, CSS, JavaScript

Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, Flask, Angular.js, Express.js, React.js, Node.js, Fast APIs

Tools: Git, CI/CD, Jenkins, Docker, Terraform, REST APIs, PostgreSQL, Grafana, Prometheus, MongoDB, Redis, Postman, Airflow, Ansible, Jira

Platforms: Amazon Web Services, Google Cloud Platform, Salesforce, ServiceNow, Linux, Red Hat Enterprise Linux (RHEL), OpenShift

Core: Operating Systems, Database Management System, Computer Networking, Cloud Computing, Object Oriented Programming

ACHIEVEMENTS

- **1637 (3-Star)** at **CodeChef** and **658 (7 Kyu)** at **Atcoder**, along with **250+ data structures and algorithms problems** over multiple platforms
- Secured **8th position** in college **out of more than 200 other teams** for **Smart India Hackathon (SIH)**
- **2019 Saraswati Silver Medal Recipient** at **Allen Career Institute**
- **IQC 2024** by **WorldQuant** Stage 1 Qualified
